# 40--Cases Just Opened--40

There was a time when first class shoes cost first class prices. You can pay a handsome price for a handsome shoe nowadays, but the necessity of doing it no longer exists. Take our \$2.50 shoe as an illustration. You don't need to be very old to remember the days when such a shoe would have cost you certainly not less than double the money and probably even a trifle more than that. The tendency all along has been to bring up the quality and down the price-such a shoe for such a figure was never offered before.
